Hello. I just wanted to send you a quick line on my experience with one of your support reps, Barak Nelson beginning on Friday Jan 30. His patience and attention to detail were greatly appreciated. Barak's knowledge of the Edulog software made our hardware upgrade go very smoothly on the 30th. Though I did need to call him back the following week (Feb 2/3) with my "curious" questions, he was always very polite and ready to help. It's not very often that I have the pleasure to work with someone like Mr. Nelson, it certainly makes my job a lot less stressful.
