Dear Edulog Support:

I have been a user of Edulog software since 1997 and I really appreciate everyone at Edulog support. I wanted you to know that no day goes by when they are not appreciated. I am also very happy with the response time that support calls us back for help.

Recently we had past issues with the nightly export from our student data base into Edulog and on both occasions support was able to assist in getting it resolved quickly, accurately and in a timely manner. Thank you, again, for your dedicated work supporting the Edulog software.

Sincerely,

Doris Bean  
Manager of Transportation
