Sorted Lists in Data Management and User Management

The 1.68 Athena release introduces an upgraded sorting option for items like, schools, grades, and other necessary codes which enhances the display of information within areas of Data Management and User Management. The updated sorting allows users to view information by categorical ID, while providing an easier view of the data presented within these areas.

			Eligit	oility Rules		
Name	Description	Grades	Programs Attendance	Walk	Hazard	

Expand and Collapse All Options in Runs Module

The previous release provided drop down carrots to allow users to see additional information regarding students and stops in the Runs Stops & Trips card within the Runs Module. The 1.68 release includes the option for Expand All, or Collapse All availability for these drop down options.

				Run St	tops & Trips						2,
_						Columns	Export	A Lock Time	s 🖉 🖆 Unlock Time	s Cancel	🗈 Save

HOLMES	1394956	01 - ADDAMS	03	DFLT			MTW	/UF ×			

Run ID Filters in Route Planning Operations > Routes

In the 1.68 release of Athena, users can easily assign various runs to routes using a simple Run ID filter, allowing ease of access when working with a lot of data simultaneously.

Advance Search Options

The 1.68 release of Athena provides more fields related to stops, vehicles, students, and more within Data Management and Utilities.

School Startup - Rollovers

With School Startup nearing closer, Athena will be preparing users with functionality for smooth Rollover processes. Within the 1.68 release, we will see that custom transportation requests end and new transportations requests populate for students that advance to new schools.

Coming Soon Opt Assign Features

In the 1.68 Athena release, routes will only be changed when a run is added, avoiding shifts in arrival or departure times. Unassigned runs are visible on the map, and the dialog box will show which runs were assigned and unassigned, with the route list indicating any added runs. Additionally, reports will be able to show which runs were added to each route.

Before	#Runs	Slack	Duration	Distance
UNASSIGNED	2	Os	48m 55s	13.71 mi
Route 007	2	6h 2m 53s	57m 46s	14.67 mi
Route 008	5	-3m 54s	2h 7m 6s	39.59 mi
TOTAL	9	5h 58m 59s	3h 53m 47s	67.96 mi
